

Dear All

Attached herein is the recommended Sum Insured Value Guideline for vehicles with age limit up to 10 years old for selected makes.

This value would be automatically displayed upon full entry of the vehicle particulars during e-policy issuance.

Please ensure that the following is captured correctly as different variant/transmission accounts for different sum insured:-

Make/Model

Year of Make

Cubic Capacity (CC)

Variant – Series – Transmission

In the event the recommended Sum Insured Value is chosen as the Policy Sum Insured, the vehicle shall be insured on Agreed Value Basis where claims settlement shall be based on Agreed Value.

Otherwise, all claims settlement shall be based on Indemnity Basis as per current policy condition i.e. the maximum amount payable shall be the vehicle market valuation at the time of loss or the sum insured as stated in the policy, whichever is lower.

Motor Department
